Let's Start

ABOUT US – SFL DECENTRALIZE

SFL Decentralize, meaning Secure Future Life (SFL), is a visionary crypto trading company built on the foundation of innovation, security, and decentralized financial growth. Operating within the BEP-20 ecosystem, SFL aims to empower individuals with next-generation digital opportunities through advanced blockchain technology and smart financial solutions. Our mission is to create a secure and transparent platform where users can confidently participate in the future of decentralized trading and digital assets.

Our vision is to become a globally trusted name in decentralized crypto trading by combining security, performance, and future-ready technology. SFL Decentralize is more than just a company – it is a movement toward financial empowerment and digital transformation. We are dedicated to helping people secure their future through intelligent trading opportunities, strong community support, and a commitment to excellence in the decentralized world.

OUR VISION

To become a globally recognized leader in decentralized crypto trading by creating a secure, transparent, and innovative financial ecosystem. SFL Decentralize envisions a future where every individual can access advanced blockchain opportunities, achieve financial freedom, and confidently participate in the rapidly evolving digital economy through trusted BEP-20 based solutions.

OUR MISSION

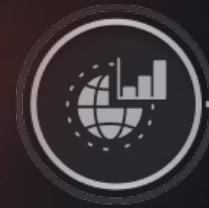

Our mission is to empower people with secure and future-focused crypto trading solutions driven by decentralization and technology. SFL Decentralize is committed to delivering transparency, innovation, community growth, and reliable digital financial services while helping users build a stronger and more secure financial future in the world of cryptocurrency.

WHY CHOOSE SFL DECENTRALIZE

Advanced Secure Trading System

SFL Decentralize is built with powerful blockchain technology and secure BEP-20 infrastructure to provide safe, transparent, and reliable crypto trading experiences for users worldwide.

Future-Focused Innovation

We continuously work on modern decentralized solutions and innovative financial technologies that help users stay ahead in the rapidly growing digital economy and crypto market.

Transparency & Trust

At SFL Decentralize, we believe trust is the foundation of success. Our platform focuses on transparency, user confidence, and ethical operations to create long-term relationships with our community.

Global Growth Opportunity

SFL Decentralize empowers individuals with opportunities to explore decentralized finance, digital assets, and smart trading solutions that support financial growth and future stability.

ABOUT BLOCKCHAIN TECHNOLOGY

Blockchain technology is a decentralized digital system that records and stores data across multiple computers in a secure and transparent manner. Instead of relying on a single authority like a bank or organization, blockchain distributes information through a network, making it highly secure, tamper-resistant, and trustworthy. Every transaction or piece of data is stored in a "block," and these blocks are connected in chronological order to form a "chain." This technology is widely used in cryptocurrencies such as Bitcoin and Ethereum, but its applications extend far beyond digital currencies.

Blockchain technology is transforming industries by improving transparency, reducing fraud, and increasing efficiency in sectors like finance, healthcare, supply chain, real estate, and digital identity management. Smart contracts, powered by blockchain, allow automatic execution of agreements without intermediaries, saving time and costs. Due to its secure and future-ready nature, blockchain is considered one of the most revolutionary technologies of the modern digital era, helping businesses and individuals create safer, faster, and more reliable systems worldwide.

WHAT IS SMART CONTRACT?

A smart contract is a self-executing digital agreement that operates on blockchain technology and automatically performs actions when specific conditions are fulfilled. Unlike traditional contracts that require lawyers, banks, or intermediaries, smart contracts work through computer code, making transactions faster, safer, and more transparent. Once deployed on the blockchain, the contract cannot be easily altered, ensuring trust, security, and accuracy between all parties involved. Platforms like Ethereum have played a major role in popularizing smart contracts across the world.

Smart contracts are widely used in cryptocurrency trading, decentralized finance (DeFi), gaming, real estate, supply chain management, insurance, and many other industries. They help automate payments, agreements, and business operations without delays or manual processing, reducing both costs and human errors. Because of their transparency, efficiency, and high-level security, smart contracts are considered one of the most innovative and powerful applications of modern blockchain technology, driving the future of digital business and decentralized systems.

WHAT IS DECENTRALIZATION?

Decentralization is a system in which control, authority, and decision-making are distributed across multiple participants instead of being managed by a single central organization or authority. In traditional centralized systems, banks, governments, or companies control data and operations, whereas decentralized systems operate through a network of users who collectively maintain and verify the system. Blockchain technology is one of the most popular examples of decentralization, where transactions and data are stored securely across many computers worldwide instead of a single server.

Decentralization provides greater transparency, security, privacy, and freedom by reducing dependence on intermediaries and minimizing the risk of data manipulation or system failure. It allows users to have more control over their assets, information, and digital activities while enabling faster and more efficient transactions. Decentralized systems are widely used in cryptocurrencies, decentralized finance (DeFi), smart contracts, digital applications, and online communities, making decentralization a key foundation for the future of modern digital technology and innovation.

SPEED TRANSACTION PER SECOND (TPS)

BITCOIN
2-3 TPS

Bitcoin is a decentralized cryptocurrency originally described in a 2008 whitepaper by a person, or group of people, using the alias Satoshi Nakamoto. It was launched soon after, in January 2009.

ETHEREUM
20-25 TPS

Ethereum was first described in a 2013 whitepaper by Vitalik Buterin along with other co-founders, secured funding for the project in an online public crowd sale in the summer of 2014

BINANCE
200-300 TPS

Binance is a global cryptocurrency exchange founded in 2017 by Changpeng Zhao. It provides crypto trading, digital wallet, blockchain, staking, and decentralized finance services to millions of users worldwide.

BUSINESS PLAN

"Our Business Plan Is Designed To Create A Financially Secure Future And Fight Against Financial Insecurity By Deploying An Independent Contract On An Immutable System".

TYPE OF BUSINESS PLAN

- ★ The System follows the Principal of 2 By 8 Hybrid binary Matrix.
- ★ The Entries are placed from top to bottom, Left to Right in a Sequential manner in multiples of 2.
- ★ This is a just 8 level structure and to have maximum achievement from this structure we have for the first time in the world.
- ★ This will ensure that each and every community member derives the Maximum potential of this entire structure and get maximum earning.

STRUCTURE OF BUSINESS PLAN

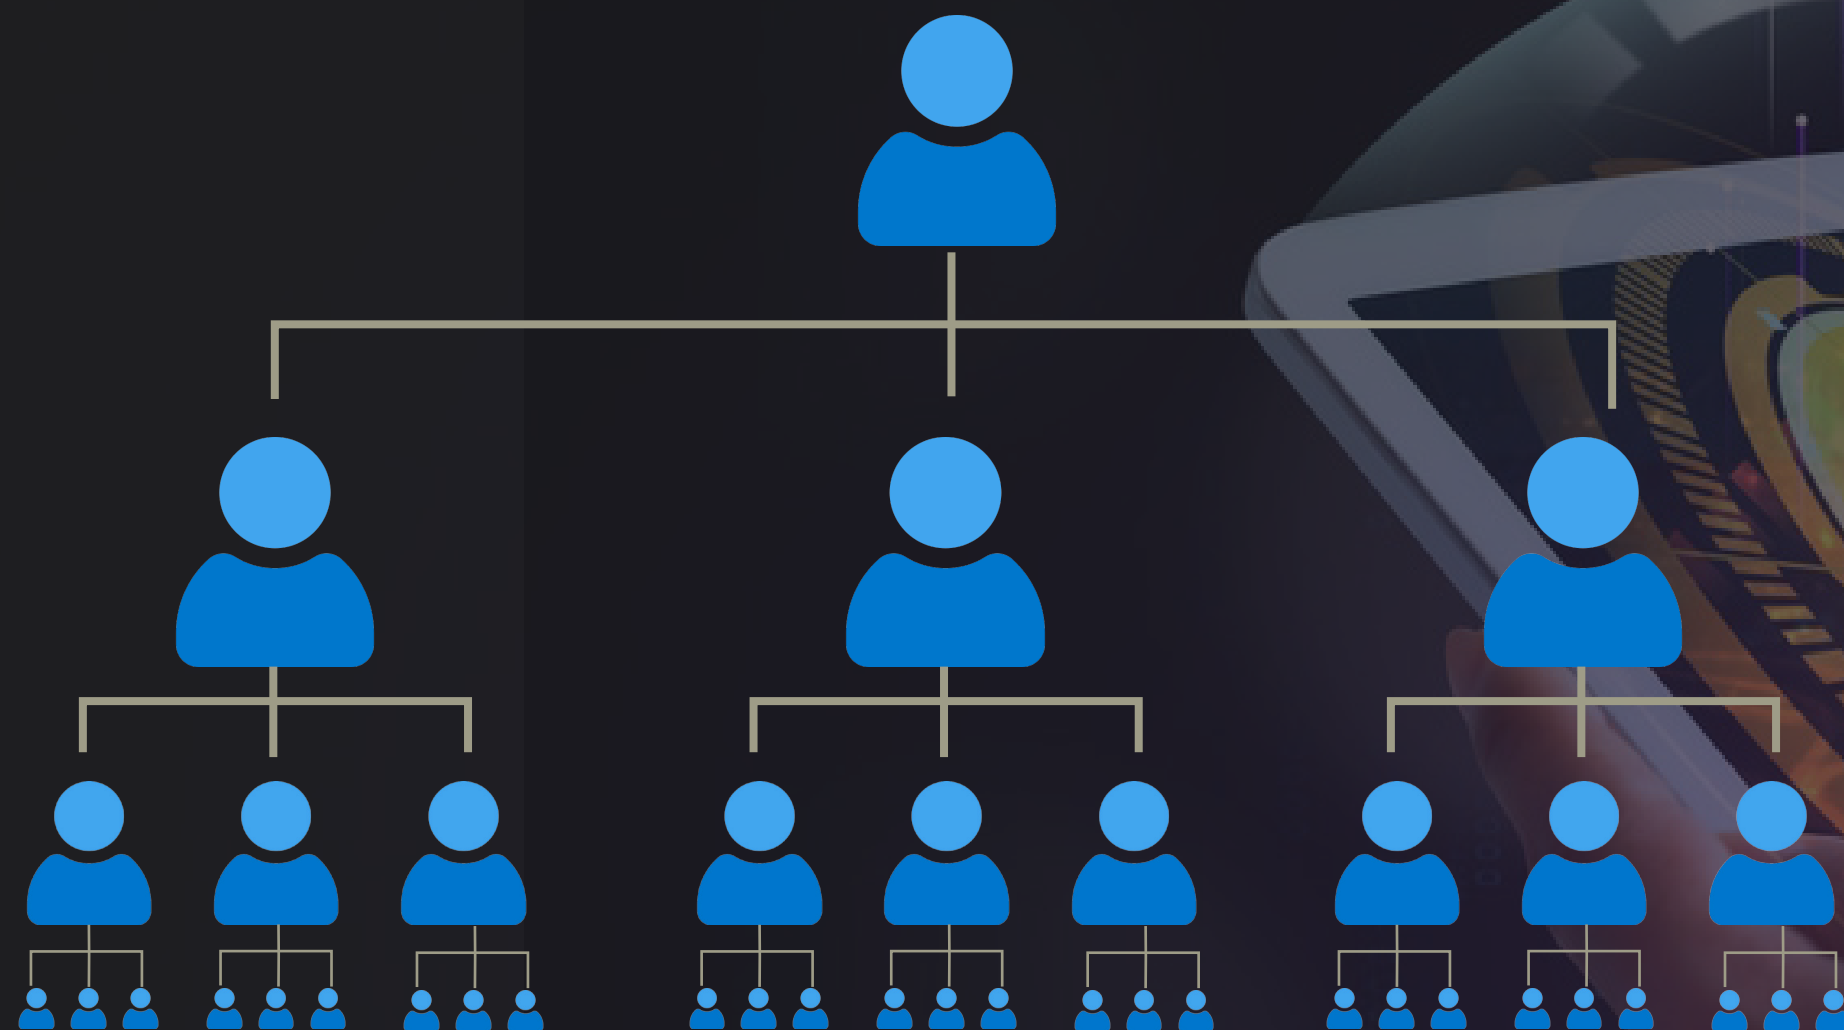

Sr. No.	Level	Member	Package	Income
1	Level 1	2	15	\$30
2	Level 2	4	\$20	\$80
3	Level 3	8	\$30	\$240
4	Level 4	16	\$100	\$1600
5	Level 5	32	\$250	\$8000
6	Level 6	64	\$2000	\$128000
7	Level 7	128	\$8000	\$1024000
8	Level 8	256	\$50000	\$12800000

Total \$13961950 - \$1,396,195 = \$12565755

2X8 HYBRID BYNARY MATRIX

STRUCTURE OF BUSINESS PLAN

3X9 HYBRID BYNARY MATRIX

**GLOBAL COMMUNITY
STRUCTURE**

COMPLETED 3 X 3 MATRIX &
ACHIVED MATRIX BONUS

BUSINESS PLAN (INCOMES)

1. SPONSER REFERRAL INCOME

Direct sponsor will get 90% Referral income on every direct. This income is received from level 1.

The New Member ID will be registered with 15\$ and the first level will be completed and at the same time the sponsor will get 90% as referral income.

2. SPONSER LEVEL INCOME

Direct sponsor gets 50% of Level income will be received on every direct basis. This income is received from level 2 to level 8 (

50% of \$20, \$30, \$100, \$250, \$2000, \$8000, \$50000)

Sponsor will get 28690\$ Sponsor Level income on every Direct

BUSINESS PLAN (INCOMES)

3. PLACEMENT LEVEL INCOME

Each UPLINE will get 50% PLACEMENT INCOME Which will be generate from LEVEL 2 to LEVEL 8

Placement Upline will get \$ 66,31,912

Placement Level Income

4. GLOBAL COMMUNITY INCOME

Every person will get the income of the Matrix from the Global community

This income will be approx. \$ 22,37,627.5
